Buckle Up – Your Safety Depends on It

When you get in your car, the first thing you do is buckle your seat belt. That same habit needs to carry over to the Ramp.

Lately, we've seen an alarming increase in incidents where members have been ejected from their tugs during accidents. Even one is too many—because these injuries are preventable.

Not wearing a seat belt turns a bad situation into a potentially fatal one. Just look around the Ramp—there's nothing soft to cushion a fall if you're thrown from your vehicle. You may trust your own driving, but what about everyone else out there? Wearing your seat belt isn't just about rules—it's about going home safely to the people who care about you.

This one's on us. Let's protect ourselves.

Buckle up. Every time.
